AYAN KOLEY

Developer & Tech Lover

(**DOB: 02/05/2000**)

I am at a point of my career where I want to be surrounded by a team that I can grow with. And thus, hoping for an opportunity as a way to contribute to an exciting and forward thinking company**.**

EXPERIENCE

Labkafe | Full-stack Developer

Kolkata 05/2021 - Present

Role:

- Leading Frontend Department
- Developing Backend, Database in a 2-man team [PHP Laravel, Python, MySQL, phpmyadmin]

Work & Responsibility:

- Designing, prototyping and preparing images [Figma, Adobe XD, Photoshop]
- Building, testing & maintaining front-end
- Reduced bounce rate by 30%
- Reduced the manual efforts of operation team by 80% by making quotation generator and invoice generator [Frontend]
- Developed HRM portal. It is a leave management dashboard for employees and management. The software is connected to the attendance management, payroll and payslip system. [Full-stack]
- Improved company internal architecture by building portfolio generator [Full-stack]
- Developed a video player app for android [Flutter]

A fun project: Built a chrome extension to make invoice uploading easier in GEM portal while bunch-biding. It helps bunch bidding process 50% easier.

PROJECTS

Bankbuddy: Final college project ~ A chatbot & voicebot for banking help [Python, JavaScript] [Demo]

Chrome Extension: Extension to highlight words ~ can be used as finding job matching requirements | Price comparing extension while browsing products
